TABLES

Table No.

Page No.

1. Federal order minimum class and blend prices for milk of 3.5 percent butterfat content, f.o.b. market or other indicated point, and butterfat differentials, August. . . . .	4
2. Federal order minimum Class I and blend prices for milk of 3.5 percent butterfat content, f.o.b. market or other indicated point, January-August averages. . . . .	6
3. Number of producers delivering milk to handlers regulated under Federal orders, total deliveries, and average daily deliveries per producer, August . . . . .	8
4. Producer milk deliveries used in Class I and Gross Class I sales by handlers regulated under Federal orders, August. . . . .	10
5. Producer milk deliveries to handlers regulated under Federal orders and deliveries used in Class I, January-August. . . . .	12
6. Total fluid items, whole milk, skim milk items, milk and cream mixtures, and cream sold in marketing areas defined by Federal milk orders, for markets where such information is available, July, with comparisons . . . . .	14
7. Federal milk order Class I formula price information, August. . . . .	18
8. Prices and economic indexes used in Federal milk order formulas to determine August prices, with comparisons . . . . .	19
9. Federal order base and excess prices for milk of 3.5 percent butterfat content, August. . . . .	20
9a. Seasonal incentive fund included under various Federal milk orders, August. . . . .	20

MAJOR ORDER ACTIONS, AUGUST 1965

Amendments:

Inland Empire - August 1 (30 FR 9249, 7/24/65). Diversion provisions revised to provide for limited diversions in all months. A handler or a cooperative association may divert 15 percent of nonmember or member producer milk in the months of September, October, and November and 25 percent in other months. Two or more cooperative associations could have their allowable diversions computed on the basis of their combined deliveries of member milk. To be eligible for diversion during September through November, a producer's milk must have been received at a pool plant on at least 6 days during the month. Action changes the standard Class I utilization percentages of the Class I price supply-demand adjustor; and, eliminates the requirement that a handler report the receipts and utilization of those nonfluid milk products which are used in manufactured products.

Southern Michigan - August 1 (30 FR 8302, 6/30/65). Amendment merges the Southern Michigan and Muskegon orders and adds several counties to the consolidated area. New consolidated order is similar to the Southern Michigan order with some revisions. Basic formula price is the Minnesota-Wisconsin; Class I price is the basic formula price for the preceding month plus \$1.40 with a supply-demand adjustment applied to the resulting price. The maximum adjustment is plus or minus forty-five cents. Action provides for a "direct-delivery differential" of 4 cents per hundredweight on milk delivered directly from farms to plants in or near Detroit, and reduces the minus location differential rates for zones beyond Zone I. Changes in pool plant requirements, allocations, and shrinkage provisions; other conforming changes.

Suspension:

Great Basin - August 12 (30 FR 10023, 8/12/65). For the period August 1, 1965, until an amended order is made effective, suspension eliminates the percentage requirements pertaining to total route dispositions by a pool distributing plant. To be qualified as a pool distributing plant for each month during this period, a plant must dispose of 15 percent of its total Class I disposition on routes in the marketing area.

FEDERAL MILK ORDER MARKETS STATISTICS

Highlights

August 1965

Merger of Southern Michigan and Muskegon. The merger on August 1, 1965, of the former Southern Michigan and Muskegon marketing areas into a single Southern Michigan area results in some adjustments of previously reported data. As has been the practice with all mergers, data for the former markets are combined and weighted to make them more nearly comparable to current data for the merged order.

Producer Deliveries. A total of 148,676 producers, 10,283 fewer than in August 1964, delivered 4.1 billion pounds of milk to regulated handlers in 68 comparable markets during August 1965. This represents a decrease of 0.9 percent from producer deliveries during August 1964. Average daily delivery per producer increased from 830 pounds in August 1964 to 879 pounds in August of this year. Producer numbers, producer deliveries, average butterfat percentages, and average daily deliveries per producer for individual markets are shown in table 3.

Producer Deliveries Used in Class I. The volume of producer deliveries used in Class I in the 68 markets increased 0.9 percent from last year to a total of 2.6 billion pounds for the month of August 1965. The average utilization percentage for August was 63 percent, up from 62 percent last year. Twenty-seven markets showed an increase in the utilization percentage, 10 showed no change, and the remaining 31 markets showed a decrease (see table 4).

Gross Class I sales, which comprise total Class I sales by regulated handlers, in-and-out of defined marketing areas, increased 0.8 percent in the 68 markets for the month of August.

Minimum Prices. The weighted average Class I price paid by handlers in the 68 markets for 3.5 percent milk was \$4.99 per hundredweight, six cents higher than the \$4.93 per hundredweight price in August 1964. Minimum Class I prices in August were higher in 55 markets and lower in the remaining 13 markets.

Producers in the 68 markets received a weighted average blend price of \$4.38 per hundredweight for 3.5 percent milk. This is eight cents higher than the August 1964 blend price of \$4.30. Producers received higher blend prices in 51 markets, the same price in three markets, and a lower price in the remaining 14 markets. Class prices, blend prices, and associated butterfat differentials, by markets, are reported in table 1.

Whole Milk Sales. Total in-area whole milk sales for August 1965 in 68 marketing areas are estimated at about 1.7 billion pounds, 0.2 percent below such sales in August of last year. Complete July in-area sales for total fluid items, and for the four major fluid product groupings (whole milk, skim milk items, mixtures, and cream), are reported in table 6.

YEAR TO DATE

Minimum Prices. The weighted average Class I price for the January-August period for the 68 markets was \$4.82, six cents higher than the \$4.76 price in 1964. The 1965 weighted average blend price was \$4.15, seven cents higher than the blend price of \$4.08 reported for this period in 1964 (see table 2).

Producer Deliveries and Deliveries Used in Class I. Milk deliveries and deliveries used in Class I are reported for individual markets in table 5. In the first eight months of this year, compared to the same period in 1964, producer deliveries for the 68 markets were up 0.9 percent, and deliveries used in Class I were up 1.6 percent. Data for the 68 markets and for all markets are summarized below:

Producer Milk Deliveries and Deliveries Used in Class I, January-August

Markets	Producer Deliveries			Deliveries used in Class I		
	1965	Change from 1964 1/		1965	Change from 1964 1/	
	1,000 lb.	1,000 lb.	Percent	1,000 lb.	1,000 lb.	Percent
68 Comparable markets 2/	35,732,028	+327,977	+0.9	21,333,925	+333,725	+1.6
6 Non-comparable markets 3/	1,647,620	+ 11,476	+ .7	1,223,830	+ 3,915	+ .3
74 All markets	37,379,648	+339,453	+ .9	22,557,755	+337,640	+1.5

1/ February 1964 data adjusted to 28 days before computing changes in both pounds and percentages.

2/ Markets under continuous regulation since January 1, 1964, which have had no significant marketing area expansion.

3/ Columbus, Louisville-Lexington-Evansville, Paducah, Nashville, Mississippi, and Red River Valley.

1/ Volumes include 29-day totals for February 1964. The percentage changes are based on adjusted 28-day totals for February 1964 to make them comparable with 1965.

2/ Markets under regulation on January 1, 1964, and which have had no significant marketing area expansions. Excludes Columbus, Louisville-Lexington-Evansville, Paducah, Nashville, Mississippi, and Red River Valley.

3/ Class I plus Class II = 4,101,921 thousand pounds in 1965 and 4,126,113 thousand pounds in 1964; utilization = 50 percent in 1965 and 51 percent in 1964.

4/ Fluid cream included in Class I, effective April 1, 1965. Class I plus fluid cream = 1,586,642 thousand pounds in 1965, utilization 40 percent (includes fluid cream, January-March, 22,512 thousand pounds); Class I plus fluid cream = 1,599,672 thousand pounds in 1964, utilization 38 percent (includes fluid cream January-August, 61,398 thousand pounds).

5/ January-April 1965 data are for the former Mississippi Delta market. Effective May 1965, data is for the Mississippi market. January-August 1964 data are combined for the former Mississippi Delta, Central Mississippi, and Mississippi Gulf Coast markets.

NEW YORK-NEW JERSEY 8/	---	---	---	---	---	---	---	---

1/ Plain, flavored, and fluid equivalent of concentrated.

2/ Plain, fortified, and flavored skim and part skim milk, buttermilk, and cultured specialties.

3/ The percentage changes are based on adjusted 28-day totals for February 1964 to make them comparable with 1965.

4/ Sales for marketing area as defined after 1964 amendment.

5/ Sales represent the area after the merger and expansion of Toledo and North Central Ohio, January 1, 1965; Eastern South Dakota and Sioux Falls-Mitchell, May 1, 1965.

6/ Sales for marketing area as defined prior to 1965 amendment.

7/ Sales represent the Mississippi Delta marketing area as defined prior to the amendment of May 1, 1965.

8/ Small amount of sales estimated.
